CAMBODIA MINE/ERW VICTIM INFORMATION SYSTEM

MONTHLY REPORT
ON
EXPLOSIVE ORDNANCE ACCIDENTS
FOR AUGUST 2026

Background

The Cambodia Mine/ERW Victim Information System (CMVIS) was established in 1994 by the Cambodian Red Cross with technical and financial support from Handicap International Belgium and UNICEF to provide systematic collection, analysis, interpretation, and dissemination of information about civilian and military casualties of landmines, unexploded ordnance, and other explosive remnants of war in Cambodia.

By the end of 2009, CMVIS had been fully transferred from the Cambodian Red Cross to the Cambodian Mine Action and Victim Assistance Authority, which assumed full management responsibility.

Explosive Ordnance (EO) Accident and Casualty Information

1- Total Casualties reported from January 1979 to August 2026

From January 1979 to August 2026, CMVIS officials recorded a total of 65155 EO casualties. All of the 65155 EO casualties:

- 51238 (79%) were mine casualties, and 13917 (21%) were ERW casualties.
- 19852 (30%) people were killed, 36195 (56%) people were injured, and 9108 (14%) people were amputated.
- 52754 (81%) casualties were men, 6133 (9%) casualties were boys (age<18), 4803 (8%) casualties were women, 1402 (2%) casualties were girls (age<18), and 63 (0%) casualties were unknowns.

2- Accident Summary from January to August 2026

From January to August 2026, **19 EO** accidents were recorded, representing a 24% decrease from the 25 accidents reported during the same period in 2025. Of these 19 incidents, 12 involved ERW and 7 were caused by mines.

3- Casualty Summary for January to August 2026

From January to August 2026, **30 EO** casualties were provisionally recorded. These figures represent a 12% decrease from the 34 EO casualties reported in the same period of 2025.

All of the 30 EO casualties:

- 13 people were mine casualties, and 17 people were ERW casualties.
- 7 people were killed, 16 people were injured, and 7 people were amputated.
- 22 casualties were men, 4 casualties were boys (age<18), 2 casualties were women, and 2 casualties were girls (age<18).

4- Accident Summary for August 2026

In August 2026, 2 EO accidents occurred in Oddar Meanchey province, representing a 100% increase compared to the 1 accident reported in August 2025. The 2 accidents include:

- 1 mine accident near a military camp.
- 1 ERW accident in cropland.

5- Casualty Summary for August 2026

In August 2026, 2 EO casualties were recorded, a 33% decrease from the 3 casualties reported in August 2025. Of the 2 casualties:

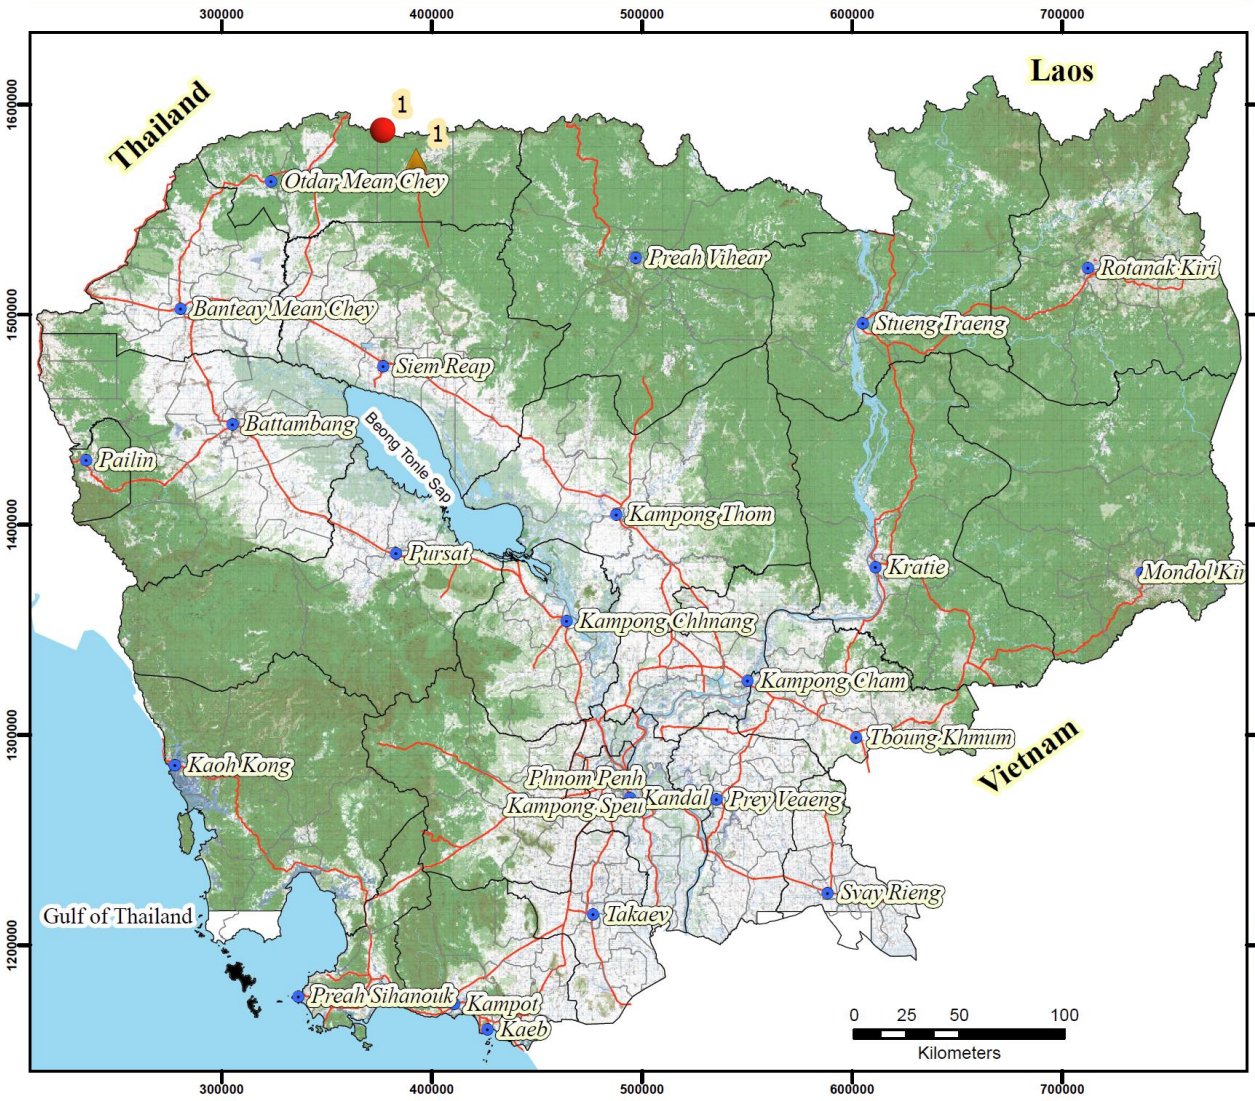

- 1 mine casualty and 1 ERW casualty.
- 1 casualty was a woman, and 1 casualty was a girl.
- 1 casualty was injured, and 1 casualty was amputated.
- The activities at the time of the accident: 1 casualty was collecting food, while 1 casualty was a bystander near the accident site.

6- Impact of accident area for the period of January 2025 to August 2026 (69 casualties)

- 05 most affected provinces represent **84%** of total casualties.
- 10 of the most affected districts represent **68%** of the total casualties.
- 10 more affected communes represent **57%** of total casualties.

For detailed information, please see page 6.
